IPERECOGENA

## ANGIOMA GIGANTE

- Funzionalità epatica: N
- Markers tumorali: N

## LARGE HCC

- Funzionalità epatica: alterata
- Alfa-FP: ↑

IPERECOGENA

## Dolore epigastrico

IPOECOGENA

- F
- 36 anni
- BRCA 2 mutato: familiarità per K mammella
- Dimagrimento, sub-ittero

- F
- 30 anni
- Alcol

## Dolore epigastrico

IPOECOGENA

*Double duct sign*

**ISOECOGENA**

ISOECOGENA

ISOECOGENA

- M
- 63 anni
- Fumatore

ISOECOGENA

ISOECOGENA

## LIPOMA SCM

- F
- 50 anni
- Tumefazione collo

## METASTASI SCM

- M
- 62 anni
- Fumatore
- K polmone
- Tumefazione collo

ANECOGENA

ANECOGENA

F - 80 anni - febbre - leucocitosi -  
PCR↑

F - 55 anni - dolenzia - anamnesi

**«La cosa importante è non smettere mai di porsi domande.  
La curiosità ha le sue buone ragioni di esistere»**

Multiple lesioni  
focali epatiche  
iperecogene

- F
- 40 anni
- Anamnesi negativa per k
- Non sintomatica

- 1. METASTASI EPATICHE**
- 2. COMPLESSO DI VON MEYENBURG**
- 3. ANGIOMATOSI EPATICA**

Multiple lesioni  
focali epatiche  
iperecogene

- F
- 40 anni
- Anamnesi negativa per k
- Non sintomatica

- 1. METASTASI EPATICHE**
  - 2. COMPLESSO DI VON MEYENBURG**
  - 3. ANGIOMATOSI EPATICA**
-

- 60 anni
- dolenza in ipocondrio destro/ epigastrio
- Apiretico
- No traumi riferiti
- No tp con anticoagulanti

- 1. CISTOADENOCARCINOMA**
  - 2. EMORRAGIA INTRACISTICA**
  - 3. ASCESSO EPATICO**
-

1. CISTOADENOCARCINOMA
2. EMORRAGIA INTRACISTICA
3. ASCESSO EPATICO

- F – 30 anni
- Fumatrice
- Dolori addominali ricorrenti
- Alterazioni dell'alvo
- Malessere - perdita di peso

**1. TERATOMA OVARICO**

**2. ASCESO PELVICO**

**3. EMATOMA DRENATO**

1. TERATOMA OVARICO
2. ASCESO PELVICO
3. EMATOMA DRENATO

- F – 30 anni
- Fumatrice
- Dolori addominali ricorrenti
- Alterazioni dell'alvo
- Malessere - perdita di peso
  
- No recenti traumi/procedure
  
- Nausea- febbre
- Leucitosi - PCR↑

# TAKE HOME MESSAGE

GRAZIE PER L'ATTENZIONE

# TAKE HOME MESSAGE

La corretta interpretazione dell'esame ecografico necessita di un adeguato inquadramento clinico-anamnestico e laboratoristico

Il riconoscimento degli artefatti ecografici può essere utile per evitare errori di interpretazione e/o per una corretta diagnosi

In presenza di reperti ecografici atipici/dubbi, richiedere ulteriore approfondimento diagnostico strumentale
